

SUMMARY

I am dedicated to empowering individuals through innovative technology so that they can face their challenges with resilience to create a more hopeful world for all.

EXPERIENCE

Information Technology Support Specialist

Jun 2022 – Jun 2025

Tolleson Union High School District

Avondale, AZ

- Served as Tier-1 support for over 3,000 campus devices, earning consistent praise for responsiveness and user satisfaction.
- Automated imaging processes to deploy 1,200+ devices per year, cutting setup time in half.
- Developed and maintained SOPs and knowledge-base articles, slashing new-staff onboarding time by 50%.
- Provided one-on-one cybersecurity best-practice advising to 120+ staff, empowering them to recognize and avoid phishing attempts.
- Designed and deployed a Power Apps dashboard pulling from Office 365 Graph API—reduced help-desk tickets by 90% and response time by 75%.
- Conducted hardware repair for out-of-warranty devices, saving \$70K annually on hardware support.
- Created user-focused guides empowering staff to resolve common issues and cutting overall ticket volume.
- Acted as IT liaison to academic teams, translating technical requirements into intuitive, user-centric solutions.

Owner & Software Developer

Dec 2022 – Jan 2025

By The Lindemans

Glendale, AZ

- Conceived and launched brand identity, driving an end-of-Q3 marketing push that yielded a 10× increase in organic page traffic.
- Conducted thorough market research and user interviews, informing product roadmap and ensuring alignment with target-audience needs.
- Architected chronic-illness management app solo, integrating encrypted database backends to meet FHIR interoperability standards.
- Managed project backlog and milestones in monday.com and Notion, delivering feature releases on schedule.
- Designed and ran A/B tests on key impression points, identifying optimizations that improved engagement by 15%.
- Established distribution on third-party stores, broadening reach.
- Authored customer support documentation and tutorials, streamlining onboarding for early adopters.
- Built lightweight monitoring scripts to log usage metrics, enabling data-driven prioritization of features and bug fixes.

Mission Technology Specialist

May 2020 – May 2022

The Church of Jesus Christ of Latter-Day Saints

Syracuse, NY

- Led final two-week remote-work rollout for 3,000+ members: configured Teams/Zoom policies, deployed VPN and MDM profiles, and ensured uninterrupted services.
- Built an automated Excel-based volunteer opportunities tool, boosting engagement by 40%.
- Authored and updated SOPs for remote work, improving consistency and halving training time for new lay-leaders.
- Coordinated cross-functional teams to streamline digital content delivery, enabling a seamless transition online.
- Automated generation and email distribution of weekly service programs to 10,000+ subscribers—cut manual prep from 4 hours to 15 minutes.
- Provided hands-on AV and conferencing support during live services, maintaining sub-5-minute average issue-resolution time.
- Served as primary tech liaison for inter-congregational events, standardizing configurations and improving collaboration.
- Collected user feedback through surveys and interviews, translating insights into platform improvements.

SELECT PROJECTS

- Wellium Health Platform (Svelte, TypeScript, CRDTs, FHIR)
Architected an offline-first, end-to-end encrypted local database for personal health records; integrated multiple encrypted storage backends with CRDTs for multi-device sync; scoped P2P module for alpha testers.
- Tax-Rate Simulator (Python, Matplotlib)
Built a script to model and graph U.S. federal tax under linear/exponential systems; compared realized rates across percentile groups and calculated disposable-income deltas.
- Automated Photo & Video Backup System (Bash, rclone, cron)
Developed a Bash script, scheduled via cron every minute, to detect new images and videos in the home directory and upload them to Google Photos; excluded dotfile and ~/Code directories from upload and preserved ~/Downloads, eliminating manual backup and cleanup tasks.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

Expected May 2026

Arizona State University

Online

- 4.0 GPA; pursuing M.S. in Computer Science (Big Data Systems)

Associate of Science in Computer Science

August 2024

Rio Salado College

Tempe, AZ

- Graduated Summa Cum Laude, 3.9 GPA

TECHNICAL SKILLS

Python

Bash

Linux

LaTeX

REST API

OpenAI API

Progressive Web App (PWA)

Rust

Microsoft Power Apps

WebAssembly

JavaScript

TypeScript

HTML5

CSS3

PvTorch

SOFT SKILLS

Love Learning

Detail-Oriented

Solution Initialization

Self-Motivating

Adaptability

Creative Problem Solving

Research-Oriented

Attention to Detail

Critical Thinking
