EXPERIENCE

Information Technology Support Specialist

📅 Jun 2022 – Jun 2025

- Served as Tier-1 support for over 3,000 campus devices, earning consistent praise for responsiveness and user satisfaction.
- Automated imaging processes to deploy 1,200+ devices per year, cutting setup time in half.
- Developed and maintained SOPs and knowledge-base articles, slashing new-staff onboarding time by 30%.
- Provided one-on-one cybersecurity best-practice advising to 120+ staff, empowering them to recognize and avoid phishing attempts.

Mission Technology Specialist

📅 May 2020 – May 2022

- Led two-week remote-work rollout for 3,000+ missionaries: configured Teams/Zoom policies, deployed VPN and MDM profiles, and ensured uninterrupted services.
- Built an automated Excel-based volunteer opportunities tool, boosting engagement by 40%.
- Authored and updated SOPs for remote work, improving consistency and halving training time for new lay-leaders.
- Coordinated cross-functional teams to streamline digital content delivery, enabling a seamless transition online.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

📅 Expected May 2026

4.0 GPA; pursuing M.S. in Computer Science (Big Data Systems).

Associate of Science in Computer Science

📅 August 2024

Graduated Summa Cum Laude, 3.9 GPA

LaTeX

Continuous Integration (CI/CD)

SUMMARY

I am dedicated to empowering individuals through innovative technology so that they can face their challenges with resilience to create a more hopeful world for all.

- Designed and deployed a Power Apps dashboard pulling from Office 365 Graph API; reduced help desk tickets by 90% and response time by 75%.
- Conducted hardware repair for out-of-warranty devices, saving \$70K annually on hardware support.
- Created user-focused guides empowering staff to resolve common issues and cutting overall ticket volume.
- Acted as IT liaison to academic teams, translating technical requirements into intuitive, user-centric solutions.

- Automated generation and distribution of weekly service programs; cut manual prep from 4 hours to 15 minutes.
- Provided hands-on AV and conferencing support during live services, maintaining a sub-5-minute average issue-resolution time.
- Served as primary tech liaison for inter-congregational events, standardizing configurations and improving collaboration.
- Collected user feedback through surveys and interviews, translating insights into platform improvements.
