📍 Utica, NY

SUMMARY

I am dedicated to empowering individuals through innovative technology so that they can face their challenges with resilience to create a more hopeful world for all.

EXPERIENCE

Technology Special Area Teacher

📅 Mar 2022 – Mar 2023

Fowler Elementary School District

📍 Phoenix, AZ

- Served as Tier-1 support for over 3,000 campus devices, earning consistent praise for responsiveness and user satisfaction.
- Automated imaging processes to deploy 1,200+ devices per year, cutting setup time in half.
- Developed and maintained SOPs and knowledge-base articles, slashing new-staff onboarding time by 30%.
- Provided one-on-one cybersecurity best-practice advising to 120+ staff, empowering them to recognize and avoid phishing attempts.

- Designed and deployed a Power Apps dashboard pulling from Office 365 Graph API—reduced help desk tickets by 90% and response time by 75%.
- Conducted hardware repair for out-of-warranty devices, saving \$70K annually on hardware support.
- Created user-focused guides empowering staff to resolve common issues and cutting overall ticket volume.
- Acted as IT liaison to academic teams, translating technical requirements into intuitive, user-centric solutions.

Owner & Digital Media Specialist

📅 Dec 2022 – Jan 2025

By The Lindemans

📍 Glendale, AZ

- Conceived and launched brand identity, driving an end-of-Q3 marketing push that yielded a 10× increase in organic page traffic.
- Conducted thorough market research and user interviews, informing product roadmap and ensuring alignment with target-audience needs.
- Architected chronic-illness management app solo, integrating encrypted database backends to meet FHIR interoperability standards.
- Managed project backlog and milestones in GitHub and Notion, delivering on schedule.

- Designed and ran A/B tests on key impression points, identifying optimizations that improved engagement by 15%.
- Established distribution on third-party stores, broadening reach.
- Authored customer support documentation and tutorials, streamlining onboarding for early adopters.
- Built lightweight monitoring scripts to log usage metrics, enabling data-driven prioritization of features and bug fixes.

EDUCATION

High School Diploma

📅 May 2022

4.0 GPA; pursuing B.S. in Genomics.

South Ridge High School

📍 Phoenix, AZ
