SUMMARY

I am dedicated to empowering individuals through innovative technology so that they can face their challenges with resilience to create a more hopeful world for all.

EXPERIENCE

Information Technology Support Specialist

Tolleson Union High School District

📅 Jun 2022 – Jun 2025

📍 Avondale, AZ

- Served as Tier-1 support for over 3,000 campus devices, earning consistent praise for responsiveness and user satisfaction.
- Automated imaging processes to deploy 1,200+ devices per year, cutting setup time in half.
- Developed and maintained SOPs and knowledge-base articles, slashing new-staff onboarding time by 30%.
- Provided one-on-one cybersecurity best-practice advising to 120+ staff, empowering them to recognize and avoid phishing attempts.
- Designed and deployed a Power Apps dashboard pulling from Office 365 Graph API—reduced help desk tickets by 90% and response time by 75%.
- Conducted hardware repair for out-of-warranty devices, saving \$70K annually on hardware support.
- Created user-focused guides empowering staff to resolve common issues and cutting overall ticket volume.
- Acted as IT liaison to academic teams, translating technical requirements into intuitive, user-centric solutions.

Owner & Software Developer

By The Lindemans

📅 Dec 2022 – Jan 2025

📍 Glendale, AZ

- Conceived and launched brand identity, driving an end-of-Q3 marketing push that yielded a 10× increase in organic page traffic.
- Conducted thorough market research and user interviews, informing product roadmap and ensuring alignment with target-audience needs.
- Architected chronic-illness management app solo, integrating encrypted database backends to meet FHIR interoperability standards.
- Managed project backlog and milestones in GitHub and Notion, delivering on schedule.
- Designed and ran A/B tests on key impression points, identifying optimizations that improved engagement by 15%.
- Established distribution on third-party stores, broadening reach.
- Authored customer support documentation and tutorials, streamlining onboarding for early adopters.
- Built lightweight monitoring scripts to log usage metrics, enabling data-driven prioritization of features and bug fixes.

Mission Technology Specialist

The Church of Jesus Christ of Latter-Day Saints

📅 May 2020 – May 2022

📍 Syracuse, NY

- Led two-week remote-work rollout for 3,000+ missionaries: configured Teams/Zoom policies, deployed VPN and MDM profiles, and ensured uninterrupted services.
- Built an automated Excel-based volunteer opportunities tool, boosting engagement by 40%.
- Authored and updated SOPs for remote work, improving consistency and halving training time for new lay-leaders.
- Coordinated cross-functional teams to streamline digital content delivery, enabling a seamless transition online.
- Automated generation and distribution of weekly service programs — cut manual prep from 4 hours to 15 minutes.
- Provided hands-on AV and conferencing support during live services, maintaining sub-5-minute average issue-resolution time.
- Served as primary tech liaison for inter-congregational events, standardizing configurations and improving collaboration.
- Collected user feedback through surveys and interviews, translating insights into platform improvements.

SELECT PROJECTS

Wellium Health Platform

Svelte, TypeScript, CRDTs, FHIR

Architected an offline-first, end-to-end encrypted local database for personal health records; integrated multiple encrypted storage backends with CRDTs for multi-device sync; scoped P2P module for alpha testers.

Tax-Rate Simulator

Python, Matplotlib

Built a script to model and graph U.S. federal tax burden and income under linear/exponential systems; compared realized rates across percentile groups and calculated disposable-income deltas.

Automated Photo & Video Backup System

Bash, rclone, cron

Developed a Bash script scheduled via cron every minute to detect new images and videos in the home directory and upload them to Google Photos; excluded dotfile and ~/Code directories while preserving ~/Downloads, eliminating manual backup and cleanup tasks.

EDUCATION

Bachelor of Science in Technological Entrepreneurship and Management

Arizona State University

📅 Expected May 2026

📍 Online

- 4.0 GPA; pursuing M.S. in Computer Science (Big Data Systems)

Associate of Science in Computer Science

Rio Salado College

📅 August 2024

📍 Tempe, AZ

- Graduated Summa Cum Laude, 3.9 GPA

TECHNICAL SKILLS

Python

TypeScript

JavaScript

Rust

C#

Java

SQL

WebAssembly

Progressive Web App (PWA)

REST API

OpenAI API

GitHub

Continuous Integration (CI/CD)

YAML

PyTorch

Machine Learning

Large Language Models

Linux

Bash

SOFT SKILLS

Creative Problem Solving

Critical Thinking

Research-Oriented

Attention to Detail

Written Communication

Systems Engineering

Workflow Systemization

Data Analysis

Adaptability

Self-Motivating

Love Learning

Collaborative Problem Solving
